Fresh Window is pleased to present a solo exhibition by the Swiss artist Marc Egger. *Here and There* showcases Egger's luminous works throughout his career, reflecting on our sense of time, space, the here and what may lie beyond. Egger's signature technique with phosphorescent pigments and acrylic on linen explores duality and change. Within one work lies a second work, which appears through changing light conditions, from daylight to nightlight. In the dark, the nature of time itself changes, as the work slowly evolves before our eyes, time is represented in a two dimensional form. Transfixed by the afterglow, the viewer's eyes and mind can escape from the unrelenting pace of contemporary society and pause. It is these pauses that can open portals to creativity, which are essential to the human experience and ultimately, human progress.
